The city council should extend encouragement to outside capitalists for any project that will result in bringing natural gas to this city. Wabash has had it piped there, Indianapolis is using it, Peru and Richmond will soon have it and Fort Wayne should be making an effort to secure it.

Last evening, at the residence of the bride's mother, on Fairfield avenue, occurred the marriage of Miss Virginia Clay to Mr. Henry R. Wolf, Rev. S. A. Northrop performing the ceremony. The bride is an accomplished young lady and was one of the teachers in the public schools. The groom is connected with the Jenney Electric light works. Mr. and Mrs. Wolf left this morning for Connecticut and after a tour of the eastern cities will return to Fort Wayne, and will be at home to their friends on the corner of Creighton and Fairfield avenues.

DEATH IN THE FLAMES.

Sixteen Persons Perish at a Tenement House Fire in Russia—The Fiend's Work Elsewhere.

ST. PETERSBURG, Sept. 28.—Sixteen persons perished in the fire at Cronstadt yesterday. The building burned was a lofty wooden tenement. The stair case was burned away and a number leaped from the windows.

CHICAGO, Sept. 28.—The large furniture warehouse of Wilkinson & Co., 15 and 17 Lake street, took fire this morning and will be a total loss. Twenty-five employes in the building had the greatest difficulty reaching the street alive.

It was at first thought that all escaped, but subsequently it was found that five were missing. The bodies of two of these have been recovered and it is believed three more are still there. Wilkinson & Co. lose $60,000 on stock; insurance, $40,000.

The loss on the building was about $25,000. The workmen were on the upper floor and before being aware of the danger, escape by the only stairway was cut off by the flames. All the employes on this floor managed to make their escape through a trap door to the roof, thence to the ground, except foreman Wm. Koch, who remained behind to see the others out in safety and a boy named Pete, who was overcome by the smoke and fire. While climbing a ladder to the trap door he fell back. Both of these were burned to death.

DELPHOS, O., Sept. 28.—The Commercial bank building and contents, Edward's grocery, and a large restaurant owned by John Gant, were destroyed by fire yesterday. The total loss is $40,000, three-fourths of which falls on the bank property.

LOOK OUT FOR FROST.

Freezing Weather and Killing Frosts Predicted in Some Portions.

WASHINGTON, Sept. 28.—Indiana:—Fair, slightly cooler, light frosts.

WASHINGTON, Sept. 28.—Freezing weather is reported in northern Minnesota, killing frosts from the southern portion of Michigan and Wisconsin, and slight frost in the northwest as far south as southern Missouri. The indications are that severe frost will occur to-morrow morning in the states of the Ohio valley, and slight frosts will occur in the exposed places of the southern portion of the gulf states, and in Tennessee: also in the west portions of North Carolina, Virginia, and in the interior of the middle Atlantic states and the interior of New England.

THE WHEAT FLURRY.

The Excitement Continues in the Market at Chicago.

CHICAGO, Sept. 28.—The flurry in wheat continues with December occupying the most attention. At the opening September wheat was unchanged in comparison with yesterday afternoon's close at $1.25.

At 11 o'clock September wheat was quoted at $1.45 and six minutes later it touched $1.50. October wheat was quoted at 99¾c.

NEW YORK, Sept. 28.—The wheat market opened 1c higher, strong and active on covering contracts, wholly in sympathy with the situation of affairs at Chicago.

CHICAGO, Sept. 28.—Market easier for wheat; cash, $1.09½; October, 98¾. Corn, steady; September, 41⅞c asked. Oats, steady; September, 23 7-16c. Flaxseed, $1.32. Pork, easy, at $15.00. Lard, $10.62½. Short ribs, October, $8.70.

A BIG SYNDICATE.

Formed for the Purpose of Controlling the Steel Rail Market.

PITTSBURG, Pa., Sept. 28.—Information has reached here of the formation of an international rail pool. It was consumated at Glasgow and includes England and the continent.

Andrew Carnegie, who was present, promised co-operation on the part of the American combination in the endeavor to advance and maintain prices.

Concerning this matter an offial of Carnegie, Phipps & Co., was seen here, and said they have received no information from Mr. Carnegie about the international combination. He said it would be a benefit to the American manufacturers to have prices advanced abroad, as competition would be less bitter and the market would stiffen in this country.

JUDGE THURMAN.

He Will Speak in Indiana at Three Places.

COLUMBUS, Sept. 28.—Judge Thurman will speak at three points in Indiana, Shelbyville being the only one decided on. He has now consented to visit Fort Wayne, at which place he will speak October 18. Thurman will go to Washington the latter part of next week to attend the argument of the telephone cases and will remain in that city for about a week.

THE YELLOW FEVER.

The Situation in the Fever Stricken Districts of the South.

WASHINGTON, D. C., Sept. 28.—Dr. Johnson, of the Mississippi board of health telegraphs that there is one suspicious case at Jackson, and one death for the twenty-four hours ending at 6 o'clock, yesterday. There have been fourteen cases and five deaths to date.

Mr. J. O. Carlisle, at Gainesville, Fla., telegraphs that there are no new cases or deaths to-day.

JACKSONVILLE, Sept. 28.—The noon reports of the board of health show nineteen new cases, colored people; one death, W. V. Burke. The refugees from Fernandina in large numbers of colored people, are seeking an entrace to Jacksonville, and are being turned back.

The condition of Col. J. J. Daniels is more hopiful this morning.

Takes the Prize.

BRUSSELS, Sept. 28.—At the international exhibition the Westinghouse air brake has received the highest prize.

An Eminent Catholic Appointed.

NEW YORK, Sept. 28.—A special dispatch from Washington to the *Catholic News*, of this city, says that President Cleveland has appointed Prof. Arthur J. Stace, of the university of Notre Dame, as scientific expert to the Paris exposition of 1889.

JUDGE THURMAN.

He Will Speak in Fort Wayne Oct. 18—It Will be a Great Rally.

Some time ago the democratic county central committee decided to have a grand mid-day rally and torch-light procession in the evening.

It was decided to invite Hon. Allen G. Thurman and to let the date accord with his convenience.

Yesterday a committee, Hon. R. C. Bell, Dr. Geo. W. Loag and Mayor Muhler went to Columbus, O., to interview Judge Thurman. He promises to be here Thursday, Oct. 18, and will be tendered an ovation.

The democrats of northern Indiana will be invited to visit Fort Wayne and for their benefit a mid-day pageant will be arranged.

Invitations will be sent to the political clubs of the great cities about us and already there are assurances that Toledo, Cincinnati, Detroit, Cleveland and Grand Rapids will be represented in the evening parade.

Speaker Carlisle, Congressman Mills, Governor Hill and other prominent men will be invited to come to Fort Wayne.

Miller & Moritz are making elegant improvements at the entrances to the Aveline house.

The Wabash excursion trains to the democratic rally at New Haven leave the south depot ot 7:30.

The Rich hotel is one of the most popular houses in the west and is crowded daily. Mr. Fred Needham seems to have hit a popular chord and has a very agreeable clerical force with him.

Mr. and Mrs H, G. Schlosser, Attica; F. G. Hawald, Columbus; Dr. A. H. Shaffer, Huntington; H. J. Craig, Toledo, Miss Agnes Fleming and Miss Mary T. Wilson, Richmoud, are guests of the Wayne hotel.

Architect Ketchum, of Cincinnati, designer of some of the handsomest public structures in the country, is in the city to-day in consultation with the trustees of the feeble minded school relative to improvements in the building now in process of construction.

WITH AN ARMED FORCE!

Governor Guy Marches Into the Chickasaw Capital and Takes His Seat as Governor.

ST. LOUIS, Sept. 28.—The information from Dougherty, Texas, is that Governor Guy marched into Tishominga, the Chickasaw capital, yesterday with an armed force and took his seat. Governor Guy was legally elected governor, but was counted out by the Byrd party and Byrd took his seat as governor, but, as it was illegal, he could not expect recognition by the United States government or by the Guy party. Governor Guy quietly gathered some of his party and took the capital and Byrd's party by surprise. As soon as all the Byrd men are aware of the change in the governorship hot times are expected.

SOLID FOR CLEVELAND.

Seventy-eight Voters at a Wedding Party Declare Their Intention.

There was a big wedding party at the home of Mrs. Henry Rodenbeck, in Adams township yesterday, the occasion being the marriage of her daughter, Louise, to Mr. August Wesling. During the day a poll of the gentlemen present was taken by Fred C. Meyer, Henry Lindeman, Christ Hitzeman and Fred Roembke, all of this city. There were seventy-eight voters present and every one of them declared for Cleveland and Thurman. The ladies then voted and with a single exception were for the democratic nominees.

This is a remarkable showing and as true as gospel. It is a pretty good indication of the feeling in Allen county.

Fort Wayne People Abroad.

The Huntington *Herald* has this personal gossip:

C. L. Drummond, of Fort Wayne, is visiting with relatives in this city.

Miss Lizzie Luddington, of Fort Wayne, is visiting with friends in the city.

O. E. Mohler, of the Fort Wayne *Gazette*, is in the city this morning, patronizing the "one and only."

E. C. Price and wife, of Fort Wayne, were in town Saturday, the guests of J. R. Rent and wife.

Mr. Myers, of Fort Wayne, was here over Sunday, visiting his brother-in-law, Henry Luhman.

E. H. Bookwalter, pressman of the Fort Wayne *Gazette*, accompanied by his wife, was in attendance at the fair to-day.

Mr. J. B. Fonner, of Decatur, Ind., who is at present connected with the McDermet & Whiteleather Business College, of Fort Wayne, was in the city to-day, on business pertaining to that institution.

Why They Didn't Speak.

He—Why, there's Johnson and his wife walking across the street and they haven't spoken a word to each other in four months.

She (*with great interest*)—You don't say so. Tell me all about it. Why did they quarrel?

He—They didn't quarrel.

She (disappointedly)—They didn't? Why didn't they speak for four months, then?

He—Because they couldn't. He was away in Europe for that time.

She—O! you brute you.

ECHOES OF THE RAIL.

Friday's Facts About the Railroads and Manufactories as Unearthed During a Morning Round.

The Pennsylvania is having a big western passenger travel.

Christ. Daseler, clerk at the Pittsburg car shops, is on the sick list to-day.

Ed. Challenger, clerk at the Pittsburg boiler shops, has purchased a handsome bicycle.

A number of the Pittsburg boiler shop employes attended the wedding of Mr. Daseler last evening.

The Wabash expect to take 1,500 people to New Haven this evening on account of the democratic meeting there.

Mr. T. R. Pickard, superintendent of the Bass foundry and machine works, went to Toledo this morning, on business.

The clerks in the railroad shops and manufacturing establishments are busily engaged at making out their monthly reports.

The new fast mail train from the west which should have been run on the Lake Shore, has been given to the Pittsburg and Fort Wayne road, the government not being able to come to terms with the Lake Shore.

It is reported that there was a serious wreck on the Nickel Plate, near Attica, O., Wednesday, and that several people were killed.

Mr. C. W. Howey, clerk in the general offices of the Pittsburg car shop, is confined to his home on East Berry street with sickness.

Mr. Frank Burgess, the well-known machinist of the Pennsylvania company, has resigned his position, to engage in other business pursuits.

The Wabash will sell half-fare tickets to Huntington and return to-morrow, on account of the fair and a circus which will be held at that place.

Mr. Tom Underwood, the popular foreman at the Olds wheel works, was being congratulated yesterday over the arrival of a handsome baby at his home.

A wreck was reported to have occurred on the Nickel Plate road near Attica, O., Wednesday, in which several persons were killed, but inquiry at the offices of company here failed to substantiate the rumor.

The statement of the business of all lines of the Pennsylvania railroad company west of Pittsburg and Erie for the eight months of 1888, show a deficiency in meeting all liabilities of $114,715, being a loss, as compared with the same period of 1887, of $607,846. The statement for the nine months ending August 31, 1888, as compared with the same period in 1887, shows a decrease in gross earnings of $565,964; an increase in expenses of $1,182,628, and a decrease in net earnings of $1,743,522.

In a publication recently issued by the Pennsylvania company occurs this paragraph. "The employes of the Pennsylvania lines are compensated sufficiently to make them self-respecting and reliable, and are disciplined to the highest standard. A powerful preventive of discord is that men filling the highest offices are expected to consider themselves employes as well as the humblest. Subordinates are expected to follow their instructions to the letter, to pay due respect to their superiors, and at the same time superior officers are required to be considerate and just in intercourse with subordinates. All understand that they must work together for the common good of the service, and a personal interest in the economical and effective working of the system is fostered on every hand."

TASCOTT AGAIN!

The Snell Murderer Said to Have Been Arrested at Denver, Colorado.

CHICAGO, Sept. 28.—A local paper asserts that the police are close on the trail of Tascott, the young burglar who murdered Millionaire Amos J. Snell, last February. They have, it is said, learned that he has been in the city during the present week, in company with a woman, supposed to be his mistress, but they have been unable to run him down.

LATER.

CHICAGO, Sept. 28.—It is reported from Denver that Tascott, the alleged murderer of Snell, was arrested to-day.

IT WASN'T HIM.

DENVER, Sept. 28.—The man supposed to be Tascott gave his name as Edward J. Carter. He has been employed in a Denver wine house as bar-tender for two weeks.

Carrie, the three-year old daughter of John Brown, of 233 John street, died of typhoid fever yesterday and will be buried Sunday at 4 p. m.

Mr. Fred W. Gardner and Miss Jessie L. Adkins, were united in marriage last night by Rev. C. M. Wilkinson, at the Simpson M. E. parsonage.

Sheriff Viberg recovered the horse taken from Frank Tibbles, who came in from the country last night to attend a party. The animal was driven east of town and tied to a fence.

Mary E. Browka has been given a permit to build an addition to her house, No. 123, Williams addition, to cost $200, and Benedict Krack to build a one and one-half story frame house, on lot 41, McCullough's addition, to cost $500.

In the production of "Dr. Jekyll and Mr. Hyde," at the Temple Tuesday evening next, Dare Davidson makes his marvelous changes from the benevolent Dr. Jekyll to the squatty demon Hyde in full view of the audience, without the means of trickery or dark stage, but by muscular contraction in broad open light. The company has been playing at Chicago and Detroit and the newspapers praise them highly.

The Wabash has just completed in their shops at Toledo, a train that is probably the finest vestibuled train yet turned out consisting of a combination car, first class coach, chair car and a sleeper. The train will be put on the main line between Toledo and St. Louis and leaves Toledo for its first trip on train 43 at 5:20 p. m., Saturday, and will after that date leave daily on that train.

Mr. Ferd Strauss, of Cincinnati, and his six sons will vote for Cleveland this year, although heretofore strong republicans. Mr. Strauss is quite well known in this city and the news of his change will create a sensation. Mr. Strauss says the republican platform means free whisky and fee whisky means a small distillery on nearly every [illegible] which has a stream of running w[illegible]n it. Thousands of Cincinnati republicans are coming out for Cleveland, so he says.

This evening Mr. Robert Mantell will present "Monbars" at the Temple. Mr. Mantell excellently portrays the character of a rugged, honorable and affectionate man, who, having fought his way from poverty to great wealth and popularity, says the Philadelphia *Times*, marries a beautiful young girl, with the hope of settling down to domestic peace, but finds on his wedding day that the girl has married him out of gratitude while her heart belongs to another. The play is full of strong situations, moves rapidly from climax to climax, and holds the sympathy of the audience to the end. Mr. Mantell is called before the curtain after every act.

Why You Feel

So weak and exhausted is because your blood is impure. As well expect the sanitary condition of a city to be perfect with defiled water and defective sewerage, as to expect such a complicated piece of mechanism as the human frame to be in good order with impure blood circulating even to its minutest veins. Do you know that every drop of your two or three gallons of blood passes through the heart and lungs in about two and a half minutes, and that, on its way, it makes bone and muscle, brain and nerve, and all other solids and fluids of the body? The blood is the great nourisher, or, as the Bible terms it,

"The Life of the Body."

Is it any wonder, then, that if the blood be not pure and perfect in its constituents, you suffer so many indescribable symptoms?

Ayer's Sarsaparilla stands "head and shoulders" above every other **Alterative and Blood Medicine.** As proof, read these reliable testimonies:

G. C. Brock, of Lowell, Mass., says: "For the past 25 years I have sold Ayer's Sarsaparilla. In my opinion, the best remedial agencies for the cure of all the diseases arising from impurities of the blood are contained in this medicine."

Eugene I. Hill, M. D., 331 Sixth Ave., New York, says: "As a blood-purifier and general builder-up of the system, I have never found anything to equal Ayer's Sarsaparilla. It gives perfect satisfaction."

Ayer's Sarsaparilla proves equally efficacious in all forms of Scrofula, Boils, Carbuncles, Eczema, Humors, Lumbago, Catarrh, &c.; and is, therefore, the very best

Spring and Family Medicine

in use. "It beats all," says Mr. Cutler, of Cutler Brothers & Co., Boston, "how

THE Old Roman is coming! Unfold the bandana to the friendly breeze.

THE democrats of New Haven will have a great demonstration this evening. Senator Barrett and ex-Senator Sarnighausen are to be the speakers of the evening, and they always command a hearing.

MR. GEORGE C. GORHAM, who has just renounced republicanism, says that if Harrison is elected, he will appoint Mr. Blaine secretary of state, and Mr. Gorham believes the people do not want Mr. Blaine in any capacity. It would seem so.

MISS ANNA DICKINSON denounces Judge Thurman as an enemy of the laboring classes. The great statesman's whole life is a contradiction to Miss Dickinson's statement, but the queer woman looses sight of the truth in her tirade for revenue only.

THE senate passed one hundred and fourteen private pension bills in forty-five minutes the other day. If President Cleveland is sincere enough to look over these hasty awards, and discover a rascally measure among them, he is denounced as an enemy of the soldiers by the republicans. The people will hardly censure him.

INDIANA seems to be unfortunate with its congressmen this year. Right on the heels of Congressman White's proposition to suspend the constitution, Mr. Cheadle arose in the house and objected to the consideration of the bill pensioning the widow of the late Gen. Phil. Sheridan. Mr. Cheadle is a republican, and in this instance was more malignant than the southern brigadiers in their palmiest days. Some of his republican constituents wired him as follows: "Your position is a misrepresentation of the loyal, patriotic and generous sentiments of your constituents." They also censure him for opposing the proposition to pension Mrs. John A. Logan.

HARRISON AND THE IRISH.

THE SENTINEL has not been unfair in this campaign, and it will not attempt to achieve victory by giving utterance to falsehoods. It must not be taken for granted, however, that charges sworn to by reputable people can be brushed aside or obliterated by flippant paragraphs, based on the simple denial of editorial writers who, personally, have not enough character to give them credence in a court of justice. Two distinct and damaging charges are made against General Harrison. One is that he said "a dollar a day was enough for any workingman," and still another is that he said "If it were not for the Isish we would not need half our penitentiaries; that they are only good to shovel dirt, etc."

If the expressions were not based on the affidavits of men whose characters can not be successfully impeached, THE SENTINEL would dismiss them as false, and unworthy of notice, but it will require something more than the casual denial of an editorial writer. who knows nothing about the facts, to satisfy the people that these brutal expressions are not true. It will require something better than a mere rejoinder to convince Irishmen of Harrison's love for them since it has been his fashion to trace his blue-blooded ancestry back to the Harrison who signed the death warrant of Charles Stuart, a fac simile of which hangs in the general's parlors at Indianapolis.

On this question, the Chicago *Times*, an independent newspaper, remarks:

Two accusations calculated to lose votes to General Harrison are supported by affidavits. The allegations should be considered in the light of the temptation to make them in a presidential campaign likely to become heated and eager, and as to the probability, from what is known of Harrison's ambition and temperament, of his having given either party a deliberate offense in the directions indicated by the charges.

The first statement, repeated frequently, is to the effect that during the riots of 1877, which involved nearly all American systems of railways, General Harrison being then an attorney of the Ohio and Mississippi, said at a public meeting that a dollar a day was enough for any workingman. In a dispatch to the *Times* from Bloomington, Illinois, dated the 25th, it is shown that William Condon has made an affidavit supported by the affidavits of various other persons that in making a speech at Durley hall at Bloomington a few days before the presidential election of 1876 Gen eral Harrison pointedly omitted in a passage complimentary of naturalized American citizens all mention of those from Ireland, and that when a person in the audience drew Harrison's attention to the omission he said: "It is easy to know that man's race; you all know what they are; if it were not for them we would not need half our penitentiaries; they are only good to shovel dirt and grade railroads, for which they receive more than they are worth, as they are not acquisitions to the American people." These two statements, coupled with the Chinese record of General Harrison, about which there is no dispute, since it is a record in black and white in the journal of the United States senate, make the sum of personal accusations against the candidate.

Origin of Diphtheria.

Diphtheria is believed to have originated in Egypt, more than 2,000 years ago. It prevailed in Egypt and Asia Minor, to which it extended, during the first 500 years, and hence was early called Egyptain or Syriac disease. Having invaded Europe, the disease appeared at Rome, A. D. 330; and being akin to the plague, of which it may be a remote modification, having had the same origin, with some similar characteristics, and being like it and malignant typhus highly contagious, the disease, in its 1,500 years' transit on the continent of Europe, affected mainly rural districts and garrisoned towns. It had extended to Holland, in which it was epidemic, in 1337; to Paris, in 1576; and appeared in America in 1771; having prevailed more extensively in France in 1818 and 1835, and in England and the United States from 1856 to 1860, and more or less since. In both city and country, more cases have occurred, other things being equal, in warm autumnal and winter weather in damp localities, where the air is almost destitute of ozone, a powerful disinfectant, and being saturated with moisture is in a low or negative electrical state, thus letting down the positive electrical conditions of the nervous system, and correspondingly diminishing vitality, in those predisposed to the disease. Damp air also, doubtless, by diminishing the cutaneous exhalation, and otherwise, may increase the predisposition to this as well as other kindred diseases. —*Dr. E. R. Marson.*

Get rid of that tired feeling as quick as possible. Take Hood's Sarsaparilla which gives strength, a good appetite and health.

Advice to Mothers.—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to take. It sooths the child, softens the gums, allays all pain, relieves wind, regulates the bowels and is the best known remedy for diarrhœa, whether arising from teething or other causes. Twenty-five cents a bottle.

Visited by Indians.

Writing from Hollywood, N. C., Elizabeth Oakes Smith tells an interesting story of her childhood's life in Maine. One evening, when her father was at sea and her mother was putting the children to bed, six tall, blanketed Indians stalked into the house. "They gave mother to understand that they wanted fire-water," said the writer. "To this she gave firm answer that she had none—but she would give them something to eat, and brought forward bread, meat, pie, and cheese, as are always on hand in a New England pantry. A wildwood appetite is not delicate in kind, and they soon devoured everything in the house, and the chief stood and scrutinized the brave, handsome face of my mother, as if reading her character. She sat in a high-backed rocking-chair with me in her lap, and my sister, two years older, standing behind her, and the young girl upon a stool at her feet. Be it remembered that they were three-quarters of a mile from any other dwelling, and the night was far spent. At length the chief made her to understand that they would give her a dance, and at once the whole six began going round the room, keeping time to a low, measured chat which they hummed, broken by notes which seemed a yell, at which each gave a leap into the air. The leader held his hand out to me, which I took with a baby giggle, being a little less than a year old. Swinging me upon his shoulder, the dance went on with beat and yells, I shouting and laughing at my best." They went off without doing any mischief, but it was a fearful ordeal for the mother.

A Million Years.

To the human understanding the vast sketches of time involved in geological history are utterly incomprehensible. It is not easy, indeed, to form an idea of what a period even a million of years is, though Croll tells us how a striking impression of such a lapse may be conveyed to mind. Stretch a piece of paper eighty-three feet four inches long around the walls of a room somewhat over twenty feet square, recall the events of life to give some conception of a hundred years, and then consider that a mark one-tenth of an inch broad at one end of the paper represents the century, while the whole strip gives place for only a million years! This illustration is worth trying. Could we stand, continues the author of "Climate and Time," upon the edge of a gorge, a mile and a half in depth, that had been cut out of the solid rock by a tiny stream scarcely visible at the bottom of this terrible abyss, and were we informed that this little streamlet was able to wear off annually only one-tenth of an inch from its rocky bed, what would our conception be of the prodigious length of time that this stream must have taken to excavate the gorge? We should certainly feel startled on finding that the stream had performed this enormous amount of work in something less than a million of years.—*Arkansaw Traveler*

An Important Element

Of the success of Hood's Sarsaparilla is the fact that every purchaser receives a fair equivalent for his money. The familiar headline, "100 Doses One Dollar," stolen by imitators, is original with and true only of Hood's Sarsaparilla. This can easily be proven by any one who desires to test the matter. For real economy, buy only Hood's Sarsaparilla. Sold by all druggists.

When the system is debilitated by disease, it should be strengthened and renewed with Ayer's Sarsaparilla. This medicine invariably proves itself worthy of all that can be said in its favor. Sold by druggists and dealers in medicines. Price, $1. Six bottles, $5.

"A Great Newspaper."

Under the above caption the *New York Graphic*, some three years ago, published a critical review of the growth of THE CHICAGO DAILY NEWS, which sets forth so clearly some of the fundamental principles underlying the development of one of the phenomenal successes of later years that it will well repay a reading. To bring some of the *Graphic's* figures down to the present date, supplemental statements are parenthetically added by the present writer.

"THE newspaper entitled to the distinction of having the largest daily circulation in America is THE CHICAGO DAILY NEWS. (Since this statement was made it is possible that the growth of the *New York World* entitles it to first place.) *The Graphic* to-day devotes a page to sketches of scenes in and about its establishment. The history of this paper is probably without a parallel in the annals of American journalism. It was founded December 20th, 1875, and was the first low-priced daily successfully established in the West. At the end of its first year it had achieved a circulation of about 10,000. From that time on its growth has been remarkable. It now prints seven editions daily, comprising both morning and evening issues. Its statement of circulation for the year 1884 shows a daily average of 125,178 copies, unquestionably the largest daily circulation on the American continent. (The sworn statement for 1887 shows a daily average of 165,376.)

"In politics THE DAILY NEWS is always independent, never neutral. While its editoral expression is sometimes vigorous to the degree of severity, there is always in its utterances of opinion so manifest a purpose to be impartial and fair to all opposing interests, that it rarely loses the confidence of the reader, however much it may fail to bring him to an acceptance of its own view concerning the matter in hand.

"As a newspaper proper, THE DAILY NEWS has earned a reputation for enterprising newsgathering second to none in the United States. It is the only cheap paper in the West that is a member of the Associated Press. It gives its readers all the news worth giving and gives it for two cents. (Now it does it for *one cent a day*.)

"Aside from its own deserving merits as a complete and cheap newspaper, it is doubtless much indebted for its remarkable growth in circulation to the persistent adherence on the part of the other Chicago dailies to the "blanket-sheet" style of journalism. Of all the people in America the average Chicagoan is most in a hurry and least inclined to wade through columns of verbiage and stuff. THE DAILY NEWS is the only Chicago daily that has the facilities for giving all the news, and at the same time the good sense to present it in concise form. The result of such a condition of affairs is that THE DAILY NEWS prints more papers than all the other Chicago dailies combined.

"The difference of revenue between the two-cent paper (even more so when the price is one cent), and the higher-priced "blanket-sheet," the latter throws away in useless and unasked for size, that not only is of no worth to the reader, but is even an annoyance, in that it compels him to gleam what is of real news interest from a mass of verbiage and worthless amplication.

"It is because its managers have been wise enough to practically recognize these essential elements of the best American journalism of to-day that THE DAILY NEWS is the best and most popular general family newspaper published in Chicago or the West."

It seems hardly possible that an endorsement of merit could be framed in stronger terms than the foregoing analysis, and yet how much greater is not the achievement now that such a journal as THE DAILY NEWS is placed in every man's hands at the reduced price of ONE CENT A DAY.

The truly marvelous enterprise of American journalism can hardly go farther. Certain it is that THE DAILY NEWS *leads the van.*

THE CHICAGO DAILY NEWS is sold by all newsdealers at One Cent per copy, or it will be mailed, postage paid, for $3 00 per year, or 25 cents per month. The attention of farmers is especially called to the fact that this metropolitan daily now gives but little more than the old time weekly. The shrewd farmer will now have his daily market reports. Fishing with a basket.

The fishing that seems the least cruel was the taking of alewives in a pond which communicates with the sea, close by Boston, not a month ago. The fish had ascended the stream until they came to a dam, and were evidently so much incensed at the presence of that obstruction that they were determined to "bunt" it away with their noses, if possible. They swarmed and leaped in shoals of thousands just below the dam; and there, on his knees on the bank, was a countryman with a market-basket and a boy with a four-bushel bag held open by his side. The countryman simply dipped his market-basket into the water and drew it up half full of wriggling fish, not one of them, apparently, less than a foot long. When the water had drained out through the holes in the bottom of the market-basket he emptied the fish in the bag. That was the whole process. Nothing very interesting about it—a trifle more interesting, perhaps, than shoveling sand into a wagon—but the fish were, no doubt, asphyxiated without much pain.—*Boston Transcript*.

Warren G. Sayre has written to Dr. Pritchard, state veterinarian, that there is great alarm among cattle raisers at Wabash, who fear that the Texas fever has appeared among the cattle. Charles Kern, a butcher, brought a car load of Texas cattle from Chicago, for slaughter. He placed the cattle for pasture on the farm of Mr. Charles Wallace, who handles a great deal of stock. Two Good Court Stories.

Here are two good stories of Pettigrew, of South Carolina, the great lawyer and Unionist. He was practicing one time before a Judge who was a Presbyterian of the straightest sect and a very hard-working officer. It came to be Maundy-Thursday, and Pettigrew and the Episcopalians and Roman Catholics thought they would like an adjournment of court over Good Friday. Pettigrew was selected to make the motion.

"Your Honor," he said, "I desire to move that the court adjourn over to-morrow."

"Why should the court adjourn over to-morrow when the docket is so crowded?" asked the Judge.

"Because, "said Pettigrew, "to-morrow will be Good Friday, and some of us would like to go tochurch."

"No," said the Judge, decidedly, after a moment's thought, "the court will sit to-morrow as usual."

"Very well, Your Honor," replied Pittigrew, adding, as he turned away, "I know there is a precedent, for Pontius Pilate held court on the first Good Friday."

The same Judge was a great stickler for etiquette, and when one hot July day Pettigrew came into the court-room in a black coat and yellow nankin trousers, the Judge took him sternly to task, asking him whether he did not know that the rules of the court required its counselors to appear in "black coat and trousers." "Well, Your Honor," said Pettigrew, innocently, "I submit that I am within the rule, for I have on a black coat and trousers."

"But they are not black trousers," insisted the Judge; "black coat and trousers means that both shaall be black."

"Then said Pettigrew, "I call Your Honor's attention to the fact that the Sheriff ofthis court is in contempt of its rules, for they require him to attend upon its sessions in a cocked hat and sword, and while his hat seems to be cocked his sword certainly is not." The Judge said no more about the trousers.—*Philadelphia Record.*

DEATH IN THE FLAMES.

Sixteen Persons Perish at a Tenement House Fire in Russia—The Fiend's Work Elsewhere.

ST. PETERSBURG, Sept. 28.—Sixteen persons perished in the fire at Cronstadt yesterday. The building burned was a lofty wooden tenement. The stair case was burned away and a number leaped from the windows.

CHICAGO, Sept. 28.—The large furniture warehouse of Wilkinson & Co., 15 and 17 Lake street, took fire this morning and will be a total loss. Twenty-five employes in the building had the greatest difficulty reaching the street alive.

It was at first thought that all escaped, but subsequently it was found that five were missing. The bodies of two of these have been recovered and it is believed three more are still there. Wilkinson & Co. lose $60,000 on stock; insurance, $40,000.

The loss on the building was about $25,000. The workmen were on the upper floor and before being aware of the danger, escape by the only stairway was cut off by the flames. All the employes on this floor managed to make their escape through a trap door to the roof, thence to the ground, except foreman Wm. Kooh, who remained behind to see the others out in safety and a boy named Pete, who was overcome by the smoke and fire. While climbing a ladder to the trap door he fell back. Both of these were burned to death.

DELPHOS, O., Sept. 28.—The Commercial bank building and contents, Edward's grocery, and a large restaurant owned by John Gant, were destroyed by fire yesterday. The total loss is $40,000, three-fourths of which falls on the bank property.

Formed for the Purpose of Controlling the Steel Rail Market.

Andrew Carnegie, who was present, promised co-operation on the part of the American combination in the endeavor to advance and maintain prices.

Concerning this matter an offilial of Carnegie, Phipps & Co., was seen here, and said they have received no information from Mr. Carnegie about the international combination. He said it would be a benefit to the American manufacturers to have prices advanced abroad, as competition would be less bitter and the market would stiffen in this country.

JUDGE THURMAN.

He Will Speak in Indiana at Three Places.

COLUMBUS, Sept. 28.—Judge Thurman will speak at three points in Indiana, Shelbyville being the only one decided on. He has now consented to visit Fort Wayne, at which place he will speak October 18. Thurman will go to Washington the latter part of next week to attend the argument of the telephone cases and will remain in that city for about a week.

THE YELLOW FEVER.

An Eminent Catholic Appointed.

NEW YORK, Sept. 28.—A special dispatch from Washington to the *Catholic News*, of this city, says that President Cleveland has appointed Prof. Arthur J. Stace, of the university of Notre Dame, as scientific expert to the Paris exposition of 1889.

JUDGE THURMAN.

He Will Speak in Fort Wayne Oct. 18—It Will be a Great Rally.

Some time ago the democratic county central committee decided to have a grand mid-day rally and torch-light procession in the evening.

It was decided to invite Hon. Allen G. Thurman and to let the date accord with his convenience.

Yesterday a committee, Hon. R. C. Bell, Dr. Geo. W. Loag and Mayor Muhler went to Columbus, O., to interview Judge Thurman. He promises to be here Thursday, Oct. 18, and will be tendered an ovation.

The democrats of northern Indiana will be invited to visit Fort Wayne and for their benefit a mid-day pageant will be arranged.

Invitations will be sent to the political clubs of the great cities about us and already there are assurances that Toledo, Cincinnati, Detroit, Cleveland and Grand Rapids will be represented in the evening parade.

Speaker Carlisle, Congressman Mills, Governor Hill and other prominent men will be invited to come to Fort Wayne.

Miller & Moritz are making elegant improvements at the entrances to the Aveline house.

The Wabash excursion trains to the democratic rally at New Haven leave the south depot at 7:30.

The Rich hotel is one of the most popular houses in the west and is crowded daily. Mr. Fred Needham seems to have hit a popular chord and has a very agreeable clerical force with him.

Mr. and Mrs H. G. Schlosser, Attica; F. G. Hawald, Columbus; Dr. A. H. Shaffer, Huntington; H. J. Craig, Toledo, Miss Agnes Fleming and Miss Mary T. Wilson, Richmond, are guests of the Wayne hotel.

Architect Ketchum, of Cincinnati, designer of some of the handsomest public structures in the country, is in the city to-day in consultation with the trustees of the feeble minded school relative to improvements in the building now in process of construction.

WITH AN ARMED FORCE!

Governor Guy Marches Into the Chickasaw Capital and Takes His Seat as Governor.

ST. LOUIS, Sept. 28.—The information from Dougherty, Texas, is that Governor Guy marched into Tishominga, the Chickasaw capital, yesterday with an armed force and took his seat. Governor Guy was legally elected governor, but was counted out by the Byrd party and Byrd took his seat as governor, but, as it was illegal, he could not expect recognition by the United States government or by the Guy party. Governor Guy quietly gathered some of his party and took the capital and Byrd's party by surprise. As soon as all the Byrd men are aware of the change in the governorship hot times are expected.

SOLID FOR CLEVELAND.

Seventy-eight Voters at a Wedding Party Declare Their Intention.

There was a big wedding party at the home of Mrs. Henry Rodenbeck, in Adams township [illegible]day, the occasion being the marriage of her daughter, Louise, to Mr. August Wesling. During the day a poll of the gentlemen present was taken by Fred C. Meyer, Henry Lindeman, Christ Hitzeman and Fred Roembke, all of this city. There were seventy-eight voters present and every one of them declared for Cleveland and Thurman. The ladies then voted and with a single exception were for the democratic nominees.

This is a remarkable showing and as true as gospel. It is a pretty good indication of the feeling in Allen county.

Fort Wayne People Abroad.

The Huntington *Herald* has this personal gossip:

C. L. Drummond, of Fort Wayne, is visiting with relatives in this city.

Miss Lizzie Luddington, of Fort Wayne, is visiting with friends in the city.

O. E. Mohler, of the Fort Wayne *Gazette*, is in the city this morning, patronizing the "one and only."

E. C. Price and wife, of Fort Wayne, were in town Saturday, the guests of J. R. Rent and wife.

Mr. Myers, of Fort Wayne, was here over Sunday, visiting his brother-in-law, Henry Luhman.

E. H. Bookwalter, pressman of the Fort Wayne *Gazette*, accompanied by his wife, was in attendance at the fair to-day.

Mr. J. B. Fonner, of Decatur, Ind., who is at present connected with the McDermet & Whitelaather Business College, of Fort Wayne, was in the city to-day, on business pertaining to that institution.

Why They Didn't Speak.

He—Why, there's Johnson and his wife walking across the street and they haven't spoken a word to each other in four months.

She (with great interest)—You don't say so. Tell me all about it. Why did they quarrel?

He—They didn't quarrel.

She (disappointedly)—They didn't? Why didn't they speak for four months, then?

He—Because they couldn't. He was away in Europe for that time.

She—O! you brute you.

ECHOES OF THE RAIL.

Friday's Facts About the Railroads and Manufactories as Unearthed During a Morning Round.

The Pennsylvania is having a big western passenger travel.

Christ. Daseler, clerk at the Pittsburg car shops, is on the sick list today.

Ed. Challenger, clerk at the Pittsburg boiler shops, has purchased a handsome bicycle.

A number of the Pittsburg boiler shop employes attended the wedding of Mr. Daseler last evening.

The Wabash expect to take 1,500 people to New Haven this evening on account of the democratic meeting there.

Mr. T. E. Pickard, superintendent of the Bass foundry and machine works, went to Toledo this morning, on business.

The clerks in the railroad shops and manufacturing establishments are busily engaged at making out their monthly reports.

The new fast mail train from the west which should have been run on the Lake Shore, has been given to the Pittsburg and Fort Wayne road, the government not being able to come to terms with the Lake Shore.

It is reported that there was a serious wreck on the Nickel Plate, near Attica, O., Wednesday, and that several people were killed.

Mr. C. W. Howey, clerk in the general offices of the Pittsburg car shop, is confined to his home on East Berry street with sickness.

Mr. Frank Burgess, the well-known machinist of the Pennsylvania company, has resigned his position, to engage in other business pursuits.

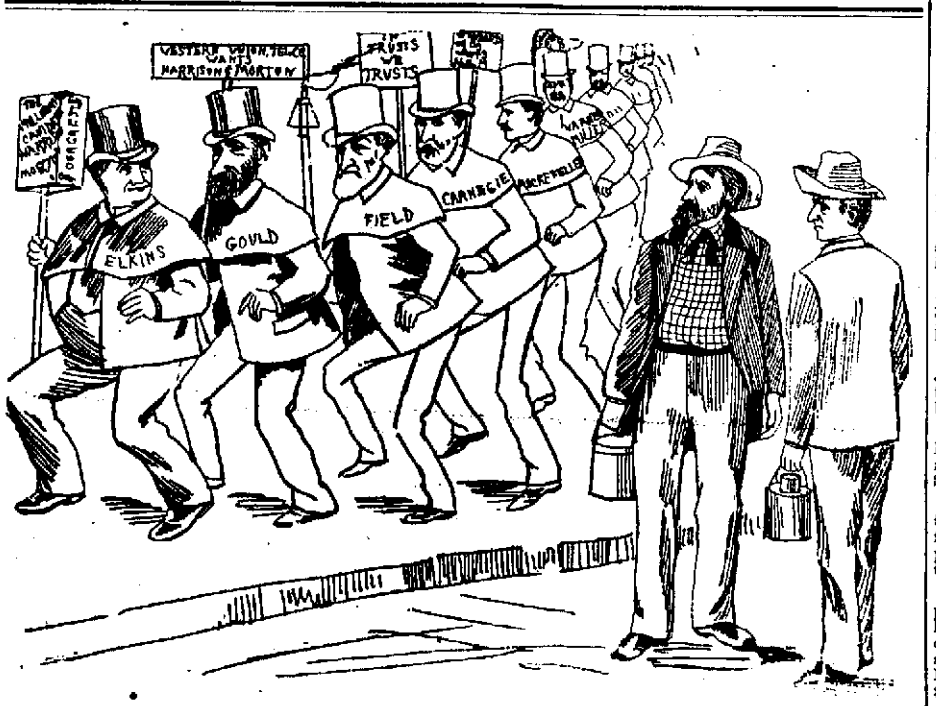
The Wabash will sell half-fare tickets to Huntington and return to-morrow, on account of the fair and a circus which will be held at that place.

Mr. Tom Underwood, the popular foreman at the Olds wheel works, was being congratulated yesterday over the arrival of a handsome baby at his home.

A wreck was reported to have occurred on the Nickel Plate road near Attica, O., Wednesday, in which several persons were killed, but inquiry at the offices of company here failed to substantiate the rumor.

The statement of the business of all lines of the Pennsylvania railroad company west of Pittsburg and Erie for the eight months of 1888, show a deficiency in meeting all liabilities of $114,715, being a loss, as compared with the same period of 1887, of $607,846. The statement for the nine months ending August 31, 1888, as compared with the same period in 1887, shows a decrease in gross earnings of $565,964; an increase in expenses of $1,182,628, and a decrease in net earnings of $1,749,522.

In a publication recently issued by the Pennsylvania company occurs this paragraph. "The employes of the Pennsylvania lines are compensated sufficiently to make them self-respecting and reliable, and are disciplined to the highest standard. A powerful preventive of discord is that men filling the highest offices are expected to consider themselves employes as well as the humblest. Subordinates are expected to follow their instructions to the letter, to pay due respect to their superiors, and at the same time superior officers are required to be considerate and just in intercourse with subordinates. All understand that they must work together for the common good of the service, and a personal interest in the economical and effective working of the system is fostered on every hand."



MONOPOLY FALLS INTO LINE FOR HARRISON AND MORTON.

WORKINGMAN—"Say, Jack! Are those our friends?" JACK—"They say so." WORKINGMAN—"Then I'm for Cleveland and Thurman!"

TASCOTT AGAIN!

The Snell Murderer Said to Have Been Arrested at Denver, Colorado.

CHICAGO, Sept. 28.—A local paper asserts that the police are close on the trail of Tascott, the young burglar who murdered Millionaire Amos J. Snell, last February. They have, it is said, learned that he has been in the city during the present week, in company with a woman, supposed to be his mistress, but they have been unable to run him down.

LATER.

CHICAGO, Sept. 28.—It is reported from Denver that Tascott, the alleged murderer of Snell, was arrested to-day.

IT WASN'T HIM.

DENVER, Sept. 28.—The man supposed to be Tascott gave his name as Edward J. Carter. He has been employed in a Denver wine house as bar-tender for two weeks.

In the production of "Dr. Jekyll and Mr. Hyde," at the Temple Tuesday evening next, Dare Davidson makes his marvelous changes from the benevolent Dr. Jekyll to the squatty demon Hyde in full view of the audience, without the means of trickery or dark stage, but by muscular contraction in broad open light. Thousands of Cincinnati republicans are coming out for Cleveland, so he says.

This evening Mr. Robert Mantell will present "Monbars" at the Temple. Mr. Mantell excellently portrays the character of a rugged, honorable and affectionate man, who, having fought his way from poverty to great wealth and popularity, says the Philadelphia *Times*, marries a beautiful young girl, with the hope of settling down to domestic peace, but finds on his wedding day that the girl has married him out of gratitude while her heart belongs to another. The play is full of strong situations, moves rapidly from climax to climax, and holds the sympathy of the audience to the end. Mr. Mantell is called before the curtain after every act.

Why You Feel

So weak and exhausted is because your blood is impure. As well expect the sanitary condition of a city to be perfect with defiled water and defective sewerage, as to expect such a complicated piece of mechanism as the human frame to be in good order with impure blood circulating even to its minutest veins. Do you know that every drop of your two or three gallons of blood passes through the heart and lungs in about two and a half minutes, and that, on its way, it makes bone and muscle, brain and nerve, and all other solids and fluids of the body? The blood is the great nourisher, or, as the Bible terms it,

"The Life of the Body."

Is it any wonder, then, that if the blood be not pure and perfect in its constituents, you suffer so many indescribable symptoms?

Ayer's Sarsaparilla stands "head and shoulders" above every other Alterative and Blood Medicine. As proof, read these reliable testimonies:

G. C. Brock, of Lowell, Mass., says: "For the past 25 years I have sold Ayer's Sarsaparilla. In my opinion, the best remedial agencies for the cure of all the diseases arising from impurities of the blood are contained in this medicine."

Eugene I. Hill, M. D., 351 Sixth Ave., New York, says: "As a blood-purifier and general builder-up of the system, I have never found anything to equal Ayer's Sarsaparilla. It gives perfect satisfaction."

Ayer's Sarsaparilla proves equally efficacious in all forms of Scrofula, Boils, Carbuncles, Eczema, Humors, Lumbago, Catarrh, &c.; and is, therefore, the very best

Spring and Family Medicine

in use. "It beats all," says Mr. Cutler, of Cutler Brothers & Co., Boston, "how

Ayer's Sarsaparilla

does sell." Prepared by

THE Old Roman is coming! Unfold the bandana to the friendly breeze.

THE democrats of New Haven will have a great demonstration this evening. Senator Barrett and ex-Senator Sarnighausen are to be the speakers of the evening, and they always command a hearing.

MR. GEORGE C. GORHAM, who has just renounced republicanism, says that if Harrison is elected, he will appoint Mr. Blaine secretary of state, and Mr. Gorham believes the people do not want Mr. Blaine in any capacity. It would seem so.

MISS ANNA DICKINSON denounces Judge Thurman as an enemy of the laboring classes. The great statesman's whole life is a contradiction to Miss Dickinson's statement, but the queer woman looses sight of the truth in her tirade for revenue only.

THE senate passed one hundred and fourteen private pension bills in forty-five minutes the other day. If President Cleveland is sincere enough to look over these hasty awards, and discover a rascally measure among them, he is denounced as an enemy of the soldiers by the republicans. The people will hardly censure him.

INDIANA seems to be unfortunate with its congressmen this year. Right on the heels of Congressman White's proposition to suspend the constitution, Mr. Cheadle arose in the house and objected to the consideration of the bill pensioning the widow of the late Gen. Phil. Sheridan. Mr. Cheadle is a republican, and in this instance was more malignant than the southern brigadiers in their palmiest days. Some of his republican constituents wired him as follows: "Your position is a misrepresentation of the loyal, patriotic and generous sentiments of your constituents." They also censure him for opposing the proposition to pension Mrs. John A. Logan.

HARRISON AND THE IRISH.

THE SENTINEL has not been unfair in this campaign, and it will not attempt to achieve victory by giving utterance to falsehoods. It must not be taken for granted, however, that charges sworn to by reputable people can be brushed aside or obliterated by flippant paragraphs, based on the simple denial of editorial writers who, personally, have not enough character to give them credence in a court of justice. Two distinct and damaging charges are made against General Harrison. One is that he said "a dollar a day was enough for any workingman," and still another is that he said "If it were not for the Irish we would not need half our penitentiaries; that they are only good to shovel dirt, etc."

If the expressions were not based on the affidavits of men whose characters can not be successfully impeached, THE SENTINEL would dismiss them as false, and unworthy of notice, but it will require something more than the casual denial of an editorial writer, who knows nothing about the facts, to satisfy the people that those brutal expressions are not true. It will require something better than a mere rejoinder to convince Irishmen of Harrison's love for them since it has been his fashion to trace his blue-blooded ancestry back to the Harrison who signed the death warrant of Charles Stuart, a fac simile of which hangs in the general's parlors at Indianapolis.

On this question, the Chicago *Times*, an independent newspaper, remarks:

Two accusations calculated to lose votes to General Harrison are supported by affidavits. The allegations should be considered in the light of the temptation to make them in a presidential campaign likely to become heated and eager, and as to the probability, from what is known of Harrison's ambition and temperament, of his having given either party a deliberate offense in the directions indicated by the charges.

The first statement, repeated frequently, is to the effect that during the riots of 1877, which involved nearly all American systems of railways, General Harrison being then an attorney of the Ohio and Mississippi, said at a public meeting that a dollar a day was enough for any workingman. In a dispatch to the *Times* from Bloomington, Illinois, dated the 25th, it is shown that William Condon has made an affidavit supported by the affidavits of various other persons that in making a speech at Durley hall at Bloomington a few days before the presidential election of 1876 General Harrison pointedly omitted in a passage complimentary of naturalized American citizens all mention of those from Ireland, and that when a person in the audience drew Harrison's attention to the omission he said: "It is easy to know that man's race; you all know what they are; if it were not for them we would not need half our penitentiaries; they are only good to shovel dirt and grade railroads, for which they receive more than they are worth, as they are not acquisitions to the American people." These two statements, coupled with the Chinese record of General Harrison, about which there is no edispute, since it is a record in black and white in the journal of the United States senate, make the sum of personal accusations against the candidate.

Origin of Diphtheria.

Diphtheria is believed to have originated in Egypt, more than 2,000 years ago. It prevailed in Egypt and Asia Minor, to which it extended, during the first 500 years, and hence was early called Egyptain or Syriac disease. Having invaded Europe, the disease appeared at Rome, A. D. 330; and being akin to the plague, of which it may be a remote modification, having had the same origin, with some similar characteristics, and being like it and malignant typhus highly contagious, the disease, in its 1,500 years' transit on the continent of Europe, affected mainly rural districts and garrisoned towns. It had extended to Holland, in which it was epidemic, in 1337; to Paris, in 1576; and appeared in America in 1771; having prevailed more extensively in France in 1818 and 1835, and in England and the United States from 1856 to 1860, and more or less since. In both city and country, more cases have occurred, other things being equal, in warm autumnal and winter weather in damp localities, where the air is almost destitute of ozone, a powerful disinfectant, and being saturated with moisture is in a low or negative electrical state, thus letting down the positive electrical conditions of the nervous system, and correspondingly diminishing vitality, in those predisposed to the disease. Damp air also, doubtless, by diminishing the cutaneous exhalation, and otherwise, may increase the predisposition to this as well as other kindred diseases. —*Dr. E. R. Maxson.*

Get rid of that tired feeling as quick as possible. Take Hood's Sarsaparilla which gives strength, a good appetite and health.

Advice to Mothers.—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to take. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels and is the best known remedy for diarrhœa, whether arising from teething or other causes. Twenty-five cents a bottle.

Visited by Indians.

Writing from Hollywood, N. C., Elizabeth Oakes Smith tells an interesting story of her childhood's life in Maine. One evening, when her father was at sea and her mother was putting the children to bed, six tall, blanketed Indians stalked into the house. "They gave mother to understand that they wanted fire-water," said the writer. "To this she gave firm answer that she had none—but she would give them something to eat, and brought forward bread, meat, pie, and cheese, as are always on hand in a New England pantry. A wildwood appetite is not delicate in kind, and they soon devoured everything in the house, and the chief stood and scrutinized the brave, handsome face of my mother, as if reading her character. She sat in a high-backed rocking-chair with me in her lap, and my sister, two years older, standing behind her, and the young girl upon a stool at her feet. Be it remembered that they were three-quarters of a mile from any other dwelling, and the night was far spent. At length the chief made her to understand that they would give her a dance, and at once the whole six began going round the room, keeping time to a low, measured chat which they hummed, broken by notes which seemed a yell, at which each gave a leap into the air. The leader held his hand out to me, which I took with a baby giggle, being a little less than a year old. Swinging me upon his shoulder, the dance went on with best and yells, I shouting and laughing at my best." They went off without doing any mischief, but it was a fearful ordeal for the mother.

When symptoms of malaria appear, in any form, take Ayer's Ague Cure. It will prevent a development of the germs of disease, and eradicate them from the system. A cure is warranted in every instance.

A Million Years.

To the human understanding the vast sketches of time involved in geological history are utterly incomprehensible. It is not easy, indeed, to form an idea of what a period even a million of years is, though Croll tells us how a striking impression of such a lapse may be conveyed to mind. Stretch a piece of paper eighty-three feet four inches long around the walls of a room somewhat over twenty feet square, recall the events of life to give some conception of a hundred years, and then consider that a mark one-tenth of an inch broad at one end of the paper represents the century, while the whole strip gives place for only a million years! This illustration is worth trying. Could we stand, continues the author of "Climate and Time," upon the edge of a gorge, a mile and a half in depth, that had been cut out of the solid rock by a tiny stream scarcely visible at the bottom of this terrible abyss, and were we informed that this little streamlet was able to wear off annually only one-tenth of an inch from its rocky bed, what would our conception be of the prodigious length of time that this stream must have taken to excavate the gorge? We should certainly feel startled on finding that the stream had performed this enormous amout of work in something less than a million of years.—*Arkansaw Traveler.*

An Important Element

Of the success of Hood's Sarsaparilla is the fact that every purchaser receives a fair equivalent for his money. The familiar headline, "100 Doses One Dollar," stolen by imitators, is original with and true only of Hood's Sarsaparilla. This can easily be proven by any one who desires to test the matter. For real economy, buy only Hood's Sarsaparilla. Sold by all druggists.

THE mother of the present German Empress is confined in a mad-house. She wanted to become the wife of Louis Napoleon, when he was President, and would have done so but for the opposition of Queen Victoria.

When the system is debilitated by disease, it should be strengthened and renewed with Ayer's Sarsaparilla. This medicine invariably proves itself worthy of all that can be said in its favor. Sold by druggists and dealers in medicines. Price, $1. Six bottles, $5.

A SIGN in New York reads "Women treated for ugliness." The women who enter there go in veiled.

BURNS and SCALDS are cured by H. Jacobs Oil used according to DIRECTIONS with each BOTTLE. PROMPTLY AND PERFECTLY AT DRUGGISTS AND DEALERS EVERYWHERE. THE CHAS. A. VOGELER CO. BALTO. MD.

"A Great Newspaper."

Under the above caption the *New York Graphic*, some three years ago, published a critical review of the growth of THE CHICAGO DAILY NEWS, which sets forth so clearly some of the fundamental principles underlying the development of one of the phenomenal successes of later years that it will well repay a reading. To bring some of the *Graphic's* figures down to the present date, supplemental statements are parenthetically added by the present writer.

"THE newspaper entitled to the distinction of having the largest daily circulation in America is THE CHICAGO DAILY NEWS. (Since this statement was made it is possible that the growth of the *New York World* entitles it to first place.) *The Graphic* to-day devotes a page to sketches of scenes in and about its establishment. The history of this paper is probably without a parallel in the annals of American journalism. It was founded December 20th, 1875, and was the first low-priced daily successfully established in the West. At the end of its first year it had achieved a circulation of about 10,000. From that time on its growth has been remarkable. It now prints seven editions daily, comprising both morning and evening issues. Its statement of circulation for the year 1884 shows a daily average of 125,178 copies, unquestionably the largest daily circulation on the American continent. (The sworn statement for 1887 shows a daily average of 165,376.)

"In politics THE DAILY NEWS is always independent, never neutral. While its editoral expression is sometimes vigorous to the degree of severity, there is always in its utterances of opinion so manifest a purpose to be impartial and fair to all opposing interests, that it rarely loses the confidence of the reader, however much it may fail to bring him to an acceptance of its own view concerning the matter in hand.

"As a newspaper proper, THE DAILY NEWS has earned a reputation for enterprising news-gathering second to none in the United States. It is the only cheap paper in the West that is a member of the Associated Press. It gives its readers all the news worth giving and gives it for two cents. (Now it does it for *one cent a day.*)

"Aside from its own deserving merits as a complete and cheap newspaper, it is doubtless much indebted for its remarkable growth in circulation to the persistent adherence on the part of the other Chicago dailies to the "blanket-sheet" style of journalism. Of all the people in America the average Chicagoan is most in a hurry and least inclined to wade through columns of verbiage and stuff. THE DAILY NEWS is the only Chicago daily that has the facilities for giving all the news, and at the same time the good sense to present it in concise form. The result of such a condition of affairs is that THE DAILY NEWS prints more papers than all the other Chicago dailies combined.

"In considering all the causes which have entered into and produced so phenomenal a journalistic growth the most important one unquestionably has been the controlling conviction of its managers that the "cheap paper" should be cheap only in price; that its news should be as fresh and complete, its editorial discussion as able, and its general tone and character as pure and healthful as its best and highest priced cotemporary. All this the "cheap paper" may easily be even at its reduced price.

"The difference of revenue between the two-cent paper (even more so when the price is one cent), and the higher-priced "blanket-sheet," the latter throws away in useless and unasked for size, that not only is of no worth to the reader, but is even an annoyance, in that it compels him to gleam what is of real news interest from a mass of verbiage and worthless amplication.

"It is because its managers have been wise enough to practically recognize these essential elements of the best American journalism of to-day that THE DAILY NEWS is the best and most popular general family newspaper published in Chicago or the West."

It seems hardly possible that an endorsement of merit could be framed in stronger terms than the foregoing analysis, and yet how much greater is not the achievement now that such a journal as THE DAILY NEWS is placed in every man's hands at the reduced price of ONE CENT A DAY.

The truly marvelous enterprise of American journalism can hardly go further. Certain it is that THE DAILY NEWS *leads the van.*

THE CHICAGO DAILY NEWS is sold by all newsdealers at One Cent per copy, or it will be mailed, postage paid, for 60 per year, or 25 cents per month. The attention of farmers is especially called to the fact that this metropolitan daily now is but little more than the old time weekly. The shrewd farmer will now have his daily market reports. Fishing with a Basket.

The fishing that seems the least cruel was the taking of alewives in a pond which communicates with the sea, close by Boston, not a month ago. The fish had ascended the stream until they came to a dam, and were evidently so much incensed at the presence of that obstruction that they were determined to "bunt" it away with their noses, if possible. They swarmed and leaped in shoals of thousands just below the dam; and there, on his knees on the bank, was a countryman with a market-basket and a boy with a four-bushel bag held open by his side. The countryman simply dipped his market-basket into the water and drew it up half full of wriggling fish, not one of them, apparently, less than a foot long. When the water had drained out through the holes in the bottom of the market-basket he emptied the fish in the bag. That was the whole process. Nothing very interesting about it—a trifle more interesting, perhaps, than shoveling sand into a wagon—but the fish were, no doubt, asphyxiated without much pain.—*Boston Transcript.*

Judge R. S. Taylor, who is assisting to reduce the surplus by drawing a salary from the government under a democratic administration, is announced by the *Gazette* to make republican speeches. When a democratic official takes the stump to aid his party the cry is "civil service reform," but when a republican official buckles on his armor and goes about making speeches for his party he is applauded for his "patriotism" by his party organs.

The Ligonier *Banner* remarks: "The Fort Wayne SENTINEL made the occasion of Hon. D. W. Voorhees visit to Fort Wayne last Thursday, for issuing a most elegant campaign edition. Warren G. Sayre has written to Dr. Pritchard, state veterinarian, that there is great alarm among cattle raisers at Wabash, who fear that the Texas fever has appeared among the cattle. Charles Kern, a butcher, brought a car load of Texas cattle from Chicago, for slaughter. He placed the cattle for pasture on the farm of Mr. Charles Wallace, who handles a great deal of stock. After Kern's cattle had all been slaughtered, Wallace's cattle began rapidly to sicken and die of what is supposed to be TEXAS fever. Dr. Pritchard has gone to Wabash to look into the matter.

General Leib, of Chicago, addressed a very fair audience at the Academy last night in the German tongue. He was escorted by the Hendricks club in full uniform. General Leib is not an orator, but he is a graceful reasoner and a scholarly gentleman who impresses his hearers. General Leib did good. He was introduced by his personal friend, ex-Senator Sarnighausen.

The quiet little city of Waterloo is in an uproar by the discovery and arrest of two society young men for breaking into a store at that place, and appropriating a part of the goods for their own use. We are informed that one is the son of Mr. Spears, the leading merchant of the place, while the other is the son of Judge R. Wes. McBride, judge of the DeKalb and Steuben circuit court.

Chancellor John F. Lang left last night for New York city to join Rt. Rev. Bishop Dwenger. To-morrow they will sail for Europe on the steamship Etruria. The chancellor was accompanied to the depot by the clergymen of the Episcopal household and a number of personal friends. During the absence of the bishop Vicar General Brammer will administer the affairs of the diocese and is its virtual head.

Two Good Court Stories.

Here are two good stories of Pettigrew, of South Carolina, the great lawyer and Unionist. He was practicing one time before a Judge who was a Presbyterian of the straightest sect and a very hard-working officer. It came to be Maundy-Thursday, and Pettigrew and the Episcopalians and Roman Catholics thought they would like an adjournment of court over Good Friday. Pettigrew was selected to make the motion.

"Your Honor," he said, "I desire to move that the court adjourn over to-morrow."

"Why should the court adjourn over to-morrow when the docket is so crowded?" asked the Judge.

"Because, "said Pettigrew, "to-morrow will be Good Friday, and some of us would like to go to church."

"No," said the Judge, decidedly, after a moment's thought, "the court will sit to-morrow as usual."

"Very well, Your Honor," replied Pettigrew, adding, as he turned away, "I know there is a precedent, for Pontius Pilate held court on the first Good Friday."

The same Judge was a great stickler for etiquette, and when one hot July day Pettigrew came into the court-room in a black coat and yellow nankin trousers, the Judge took him sternly to task, asking him whether he did not know that the rules of the court required its counselors to appear in "black coat and trousers." "Well, Your Honor," said Pettigrew, innocently, "I submit that I am within the rule, for I have on a black coat and trousers."

"But they are not black trousers," insisted the Judge; "black coat and trousers means that both shall be black."

"Then said Pettigrew, "I call Your Honor's attention to the fact that the Sheriff of this court is in contempt of its rules, for they require him to attend upon its sessions in a cocked hat and sword, and while his hat seems to be cocked his sword certainly is not." The Judge said no more about the trousers.—*Philadelphia Record.*
